

Services for Dentists

JW Hinks has many years' experience in working with dentists, so we appreciate that good financial planning and management are vital in order to run a successful practice.

In addition to providing tailored accountancy and taxation services, our specialist advice can make a real difference when you are dealing with issues such as acquisitions or disposals, incorporation, specialisation or diversification within your practice, or moving from the NHS to a private practice.

We are members of the Healthcare Group of the Institute of Chartered Accountants in England and Wales and the National Association of Specialist Dental Accountants and Lawyers (NASDAL).
